About Pure Innovations

Café Pure is operated by Pure Innovations Ltd, a not-for-profit Stockport social enterprise. We provide supported employment opportunities for those who are most disadvantaged in obtaining access to employment. We also manage daycare services for adults with disabilities. Instead of traditional day care services we have established community volunteering projects including countryside and park wardens, garden force, grounds maintenance, recycling and catering. Pure Innovations runs its Café Bar's as a social business. These are commercially focused to meet the needs of its customers and financially sustainable with the income generated supporting our services. They offer a unique opportunity for people who attend our day services to volunteer to work at these premises and obtain catering skills. Our volunteers work alongside trained catering staff ensuring that the experience has real world validity which means people develop genuine skills, independence and build confidence. We are always looking for companies who are able to employ one of our clients. If you are an employer wishing to recruit a diverse workforce, please contact us on 0161 474 5900. If you wish to volunteer to work supporting our individuals on their community volunteering projects we'd love to hear from you too. We can offer you a rewarding experience.
