The Kitchen is a commercial bakery and caterers operated by Pure Innovations Ltd. We are a Charity who work across Stockport and Greater Manchester, supporting adults with disabilities. All the delicious bread and cake on our menu is produced from scratch by our staff and clients. Everything you purchase will allow us to reinvest into our bakery. This provides further opportunities for our clients and at the same time, offers you the customer, a great experience! We thank you for your custom.

Here at musicMagpie, we have been using The Kitchen as caterers for our boardroom meetings on a regular basis. You get a great sandwich selection, mini quiches and mini cakes too on their buffet menus. Everything is so fresh and everyone has commented how much they enjoy their lunches. I also buy their cheese & onion Coburg loaf for myself ...it's divine, often still warm from the oven! The Kitchen is incredible value for money and our buffets are always delivered with a smile. It's so lovely to meet some of the clients who have helped to put our spread together too. I cannot recommend The Kitchen highly enough.
