

Risk Assessment Name: Phased return to Pure Support Service Delivery during Covid-19

People involved in completing initial RA: Fiona Harradine, (H&S Manager), Kath Brooks, (Pure Support Manager), Pete Locke, (Pure Support Manager),

Dave Ferrier, (Operations Director) **Original date of completion:** 20th May 2020

OVERVIEW OF RISK ASSESSMENT

Pure Support usually provides day services to adults with learning, physical and associated disabilities from Monday-Friday between the hours of 08:30-16:00, in a variety of building and community locations across Stockport, Rochdale and Oldham. Due to Government advice re: Covid-19 Pandemic Pure Support closed on 24th March 2020, although we continued to provide a very reduced and limited service for some identified clients to 'provide care or to help a vulnerable person' as per Government advice, (there was a separate risk assessment in place for this).

We are now at the planning a phased re-opening of our day services and are continually following Government and other relevant guidance in doing so. https://www.gov.uk/government/publications/closure-of-educational-settings-information-for-parents-and-carers/reopening-schools-and-other-educational-settings-from-1-june

		wishing to return, on advice from Adult Social Care			21/4		
Travel to and from Pure support	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread Risk of enforcement action due to not adhering to Government	 Some clients will be dropped off and picked up at relevant support location by parents/carers, who will not be allowed to enter the building Pure Support will advise parents/carers that this form of travel should not take place on public transport A daily transport log will be kept at each site for contact tracing purposes Pure Support will provide some transport, where this is deemed essential for a client to attend for their improved health and wellbeing, although we will not always be able to adhere to the 1-metre plus 	Med 4	No further action at this time, continue with existing control measures	N/A	N/A	N/A

guidance	distancing during these times	
	Transport has only been offered to those	
	clients and their families where there is an	
	identified need based on the health and	
	well-being of each individual	
	Parent and carers have been made aware	
	of the procedures that will be followed	
	confirming that they are happy with the	
	measures Pure have taken to safeguard	
	the client in attending service	
	There is a robust and transparent audit	
	trail to identify all the transport activity for	
	each individual, considering such things as	
	length of time spent of vehicles and	
	number of clients on each vehicle	
	A register of vehicles and who travelled	
	with who, (including the driver), will be	
	kept, to assist with contact tracing should	
	there be any positive cases	
	When picking up/dropping off the member	
	of staff does not enter the home to	
	reduce risk of transmission	
	Vehicles have been fully valeted before re-	
	opening of service	
	Vehicles are cleaned after each use paying	
	particular attention to 'high touch areas'	
	Weather permitting, windows will be	
	opened during transport top ensure	
	adequate ventilation	
	All drivers will wear a face mask Validate will contain band continue for use	
	Vehicles will contain hand sanitiser for use	
	when getting into vehicle	
	Clients will be asked to wear a face Clients will be asked to wear a face Clients will be asked to wear a face Clients will be asked to wear a face	
	covering for their journey. Pure	
	Innovations can provide a supply of face	
	coverings for use, if required	

		 Routes will be planned to reduce length of time in vehicle to minimum Vehicles will have reduced occupancy and no-one will sit directly opposite face to face Pure Support staff will not car share to and from work There will be no transport provided outside of the buildings during support/operational hours, unless in emergency situations 			
Entering & exiting buildings	Clients, staff and members of the public Risk of illness due to Covid-19 transmission and spread Risk of enforcement action due to not adhering to Government guidance	 Each building will have identified entrance and exit routes which will be monitored by an identified member of staff at the start and end of each day Parents/carers will not be able to enter the building. There will be identified 2 metre markers outside the building at the entrance and exit points that parents/carers will be asked to adhere to We have increased entrance/exit routes at buildings, (where possible), to reduce numbers using at any one time Due to nature of service arrival and pick up times tend to be dispersed Upon arrival at the building each client will be supported to sanitise and/or wash their hands All staff will sanitise and/or wash their hands upon arrival at their work place and if re-entering the building during the day, (e.g. after smoke breaks) 	Kath B Pete L	05/06/20	✓ ✓
Activities/sessions within building, (type, location and numbers)	Clients, staff and members of the public Risk of illness	 Service provision will from locations that are large enough to allow for current Government guidance on social distancing, (where possible), to be Low 2 No further action at this time, continue with existing control measures 	N/A	N/A	N/A

Appropriate level of safe support Client/staff ratios	Clients – risk of impact to health/welfare if not supported appropriately Clients, staff and members of the public Risk of illness due to Covid- 19	 Parents/carers picking up and dropping off will not enter the buildings, a member of staff will meet at the door to ensure people leave and arrive safely Everyone, (clients and staff), will sanitise and/or wash their hands immediately upon arrival to the building and regularly throughout the day Any activities accessing the community will be in line with Government guidance Each activity/session room will have supplies of cleaning materials which will be used regularly on 'high touch' areas Staff supporting will already know the clients and will have read and signed their personal risk assessment Staff rotas will be matched appropriately to support need, (i.e. staff will have had the mandatory and any specialist training to safely support e.g. epilepsy, medication dysphagia etc.) Staff will adhere to the 1-metre plus social distancing, when supporting, where possible and encourage this with clients Staff will have the usual PPE for administering medication, unless emergency epilepsy rescue medication, (Buccal Midazolam), where the addition of 	Low 1	No further action at this time, continue with existing control measures	N/A	N/A	N/A
Personal care	Clients, staff and members of the public Risk of illness due to Covid-	 a face visor will be used We will be unable to always adhere to the 1-metre plus distancing when providing personal care. In these circumstances staff will appropriate PPE as identified by Public Health England in 'Domiciallry 	Med 4	Check stock of bodily fluid clean up kits	Fiona H	01/06/20	√
	19 transmission	Personal protective equipment (PPE) –					

	and spread	resource for care workers delivering homecare (domiciliary care) during sustained COVID-19 transmission in England' Staff have completed Infection Control e- learning Infection Control procedures in place There will be identified staff on the rota for personal care each day, to reduce contact Staff are provided with the appropriate PPE to provide personal care Staff are inducted in appropriate use and disposal of PPE High touch areas in personal care rooms will be wiped down after each use Additional 'Housekeeper' role in place at each site There are bodily fluid clean up kits available at each building There is sufficient stock of face visors should they be required					
Meals support	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread	 Clients and staff will provide their own lunch Microwave is only to be used where there is a specific health/dietary need. Identified daily housekeeper supporting with lunch duties to minimise touch contact We will be unable to always adhere to the 1-metre plus distancing when providing lunch support for some clients. In these circumstances staff will appropriate PPE as identified by Public Health England in 'Domiciallry Personal protective equipment (PPE) – resource for care workers delivering homecare (domiciliary care) 	Med 4, (due to direct lunch support)	No further action at this time, continue with existing control measures	N/A	N/A	N/A

		 during sustained COVID-19 transmission in England' There is sufficient stock of face visors should they be required Where there is an identified member of staff undertaking 'Housekeeping' will collect meals from fridge and provide at lunchtime to minimise contact Lunches will be provided in the activity/session room to reduce contact All staff and clients will wash their hands before and after eating, (or be supported to do so) Staff and clients can bring in their own travel mug/drinking vessel for use during the day if they choose 					
Infection Control	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread	 All buildings will be appropriately stocked with liquid soap, paper towels, hand sanitisers, cleaning wipes, tissues, bins Bins will have any lids removed to limit touch contact and hence potential virus transmission. This has been assessed as less risk than foot pedal bins, where some individuals may still touch the lids There will be allocated stations with hand sanitisers, wipes and tissues It is the member of staff identified for cleaning, 'Housekeeping', that day to be responsible for keeping identified areas stocked up, or at smaller sites the staff members working there Bodily fluid clean up kit available at each site 	Low 2	Firm up stock monitoring and re- ordering Update Infection Control Policy to include a section on Covd-19 Display posters re: good hand hygiene in appropriate locations and a reminder poster when entering building to wash hands immediately	Kath B Pete L Fiona Harradine Fiona Harradine	05/06/20 12/06/20 01/06/20 05/06/20	\ \ \ \ \
		 Some doors maybe wedged open, (where they wouldn't normally be), to limit touching. Where this occurs, it is the Fire 					

		 Wardens responsibility to close them upon exiting in event of an emergency evacuation System in place for regular re-ordering of stock Fans will not generally be used; however, this may be required where the risk to individual's health is greater, (e.g. due to epilepsy and/or adverse weather conditions). Fans are listed on the 'Housekeeper' list for cleaning with the recommendation that they have clip off fronts, so that the blades and the grills can be cleaned When used, consideration will be given to direction and location of fan. Fans will always be used in rooms where windows are open Fans will NOT be used if anyone is showing symptoms of Covid-19 					
Cleaning	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread	 Usual cleaning schedules apply At larger site there is a staff member identified daily on rota, 'Housekeeper' to undertake additional cleaning duties, of high touch areas at regular intervals throughout the day At smaller sites any staff working there will undertake regular wipe downs of high touch areas All rubbish disposed of in usual way If anyone has been identified as showing symptoms of Covid-19 then this waste should be placed in a double bin liner secured and placed in a safe place for 72 hours, before being disposed of in outside waste 	Low 2	Write guidelines re: what is required of additional cleaning duties in 'Housekeeping' role	Fiona H	01/06/20	√

Personal	Clients, staff	• Following Public Health England in Low 2 Write guidelines re:	Fiona	01/06/20	√
Protective Equipment, (PPE)	and members of the public Risk of illness due to Covid- 19 transmission and spread Risk of enforcement action due to	 'Domiciallry Personal protective equipment (PPE) – resource for care workers delivering homecare (domiciliary care) during sustained COVID-19 transmission in England' Staff are inducted into safe use of PPE Clients choice whether to bring and wear face coverings from home Team Co-ordinators to monitor PPE stock levels and re-order as necessary following 	Fiona Harradine	05/06/20	✓
	not adhering to Government guidance	 Team Co-ordinators to check correct use and disposal of PPE on an adhoc basis Everyone has been asked to wear clean clothes each day and wash clothes worn whilst in Pure Support 	Fiona Harradine	05/06/20	✓
Communication difficulties due to PPE, (face masks)	Distress to clients to due being unable to communicate effectively	This will be assessed if identified as a support issue once phased re-opening in place Dow 1 No further action required at this time continue with existing control measures		N/A	N/A
Someone displaying symptoms of Covid-19	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread Risk of closure to Pure Support	 If any clients show symptoms of Covid-19 whilst being supported they will be isolated, (areas identified within buildings), and parents/carers contacted to come and collect If staff display symptoms of Covid-19 they will return home Additional cleaning will take place on any known areas associated with individual and high touch points throughout building If any clients show symptoms of Covid-19 symptoms must be reported to both Dave Ferrier, (Operations Director and Fiona Harradine (Health & Safety Manager) If anyone displays urgent medical signs then emergency medical support will be)	On-going	
	rule Support	sought, stating that the individual is thermometers for or	F:	29/05/20	

Contractor(s) accessing buildings	Clients, staff and members of the public Risk of illness due to Covid- 19 transmission and spread	 showing symptoms of Covid-19 Appropriate Government guidance will be followed regarding deep clean and continued delivery of service If a case of Covid-19 has been identified cleaning will be undertaken using detergent and disinfectant with 1000 parts per million of available chlorine or a product that is effective against enveloped viruses After anyone has left the building, who may have displayed symptoms, the Covid-19 cleaning guidance will be followed External cleaners will be notified Any cleaning material used will be doubled bagged and left for 72 hours before being put in waste Regular servicing and maintenance will take place of essential areas/equipment to adhere to Health & Safety legislation Where possible arrangements will be made for contractors to attend when there are limited numbers of people on site Before contractor is allowed on site they will be asked to explain their risk assessment & method statement, (RAMS), to check Covid-19 has been considered Dependant on the work undertaken the area will be cleaned after contractor(s) 	Low 1	No further action required at this time, continue with existing control measures	N/A	N/A	N/A
